HOW THE PROMOTION WORKS

Royal Purple® is offering consumers a service certificate valid on their next Royal Purple service at your location. Using promotional social media Royal Purple targets consumers driving them to your door. Your greeter or technician presents to those customers who received the offer plus all others who would benefit from the service. That gives your entire relevant consumer base the opportunity to get a Royal Purple service now, increase your ticket, and get an additional Royal Purple service later with a discount that drives repeat business to you!
